VDMA: International Rotating Equipment Conference 2019 in Wiesbaden

Frankfurt, 21 June 2018 – On 24 and 25 September 2019 the „International Rotating Equipment Conference – Pumps, Compressors and Vacuum Technology“ will take place for the fourth time: Three years after the last event held in Düsseldorf, VDMA Pumps + Systems as well as VDMA Compressors, Compressed Air and Vacuum Technology will again unite its two forums under one roof: the 12th Pump Users International Forum and the 5th Compressor Users International Forum.

„Our tried-and-tested concept will also be maintained in 2019, two days technical lectures and an accompanying exhibition“, informs Christoph Singrün, Managing Director at VDMA Pumps + Systems as well as Compressors, Compressed Air and Vacuum Technology. The conference offers participants and exhibitors unique advantages:

- expert knowledge for users
- science-based papers
- technical exhibition
- latest technical trends
- exchange of ideas and experiences

Around 750 participants from over 30 countries attended the last event in 2016. With regard to size and internationalization, it was thus the “World’s No. 1”.

Further information about this event is available at:
