International Rotating Equipment Conference 2019
Stand demand exceptionally good

Frankfurt, 14 May 2019 – 50 percent of the stands for the accompanying trade exhibition of the "International Rotating Equipment Conference 2019" have already been awarded. Interested parties are thus setting a similarly fast pace as at the successful 2016 event, when around 80 companies exhibited on a good 700 square metres.

"We are delighted at the brisk demand and the fact that companies are accepting our offer to register online for a stand so well," says Christoph Singrün, Managing Director of VDMA Pumps + Systems as well as Compressors, Compressed Air and Vacuum Technology, promoter of the conference.

In addition to the trade exhibition, the conference from 24 to 25 September 2019 also offers opportunities to participate as a sponsor and as a visitor to the extensive conference programme. This includes almost 70 presentations in 28 sessions and is already available online at <https://www.introequipcon.com>.

With around 750 participants from over 30 countries (2016) and around 700 square metres of exhibition space, the "International Rotating Equipment Conference" is the world leader in the field of pumps, compressors and vacuum technology. The venue is the RheinMain CongressCenter in Wiesbaden.

The VDMA represents more than 3200 companies in the medium-sized mechanical and plant engineering sector. With around 1.3 million employees in Germany and a turnover of 232 billion euros (2018), the sector is the largest industrial employer and one of the leading German industrial sectors overall.
